

Surviving an "IT apocalypse"

Support against data armageddon

Let's say you're the IT support go-to person for your Project Management company. Are you prepared for anything from maintaining software performance to a complete data meltdown? Before you're faced with a scorched Earth scenario, better make friends with LOADSPRING's brainiac IT Support gurus. Because expert support is everything.

Deadly backup problems

Untested disaster recovery plans

Unusable recovered data

LOADSPRING™ solutions

Your **backup data** is **protected** against zombie-like hacks

Our technologies **support the most stringent RPO and RTO** requirements

Off-site data replication protects your information

We **continually test all backup/recovery** processes

Did you know?

It can take between **33 and 72 hours**¹ to recover from a ransomware attack—even with tested and validated backups in place.

LOADSPRING can restore your world in as little as 15 minutes.

Outrun Armageddon! Foil zombie hackers, get legendary support and integration plus robust data protection and recovery to minimize disastrous lost data.

Surviving an "IT apocalypse"

Cataclysm from within?

Let's say you're the IT support go-to person for your Project Management company. Are you prepared for anything from maintaining software performance to a complete data meltdown? Before you're faced with a scorched Earth scenario, better make friends with LOADSPRING's brainiac IT Support gurus. Because expert support is everything.

Internal support problems

Doing all support in-house **can overwhelm your IT Department** and requires constant training and certifications

Internal IT teams are **rarely experts in project Cloud infrastructure and applications**

LOADSPRING™ solutions

20 years of legendary support for fast case resolution

True experts in Project Management and Cloud infrastructure

Centralized support keeps a lid on upgrades, infrastructure, and security concerns

Factoid

The much-publicized WannaCry ransomware attack locked out more than **300,000 computers** and blocked vital data access across **150 countries!** Now you see why **LOADSPRING** takes security so seriously.

Outrun Armageddon! Foil zombie hackers, get legendary support and integration plus robust data protection and recovery to minimize disastrous lost data.

Surviving an "IT apocalypse"

Software performance catastrophes?

Let's say you're the IT support go-to person for your Project Management company. Are you prepared for anything from maintaining software performance to a complete data meltdown? Before you're faced with a scorched Earth scenario, better make friends with LOADSPRING's brainiac IT Support gurus. Because expert support is everything.

App performance problems

Ignoring performance warning signs
equals sluggish apps
and compatibility issues

Avoiding "problem" apps
can turn your best software
into **pricey shelfware**

LOADSPRING™ solutions

LOADSPRING turns
underachieving apps
into **star performers**

Our in-depth knowledge
keeps project software
performing at its peak

Success guaranteed
by setting-up apps right
the **first time**

We're leaders in
maximizing PM
software usefulness

Did you know?

A: Our high-performance Cloud platform leads to better-integrated, better-performing apps

B: We optimize software performance and prevent IT adoption tragedies

Outrun Armageddon! Foil zombie hackers, get legendary support and integration plus robust data protection and recovery to minimize disastrous lost data.

Surviving an "IT apocalypse"

Integration deployment strategies

Let's say you're the IT support go-to person for your Project Management company. Are you prepared for anything from maintaining software performance to a complete data meltdown? Before you're faced with a scorched Earth scenario, better make friends with LOADSPRING's brainiac IT Support gurus. Because expert support is everything.

Integration Armageddon

Failure to integrate equals **failure** to innovate

Ignoring integration issues means the **extinction of process improvement**

Making due with isolated apps **restricts** BI efforts and streamlining

LOADSPRING™ survival solutions

Apps, info, devices, teams and analytics are **integrated across all project requirements** by experts

No matter if your data is onsite, in our Cloud or anyone else's Cloud, **LOADSPRING's custom integrations** allows fast, secure data and input sharing

Our 20 years of system-wide, multi-vendor app **integration** allows **unified data in realtime**

Amazingly, **90%** of ALL the world's data has been created in the last **2 years**.¹ With this sudden mushrooming in Cloud-based data storage, LOADSPRING's industry-leading security and recovery measures are more important than ever.

Outrun Armageddon! Foil zombie hackers, get legendary support and integration plus robust data protection and recovery to minimize disastrous lost data.
